

2-IN-1

AMS 2-IN-1

The global standard in
security hardware solutions

2-IN-1

AMS 2-IN-1

Only product to include all Security requirements for high end security applications whilst saving time and money on installation + adjustability.

Completely unique to the **AMS 2 in 1**, all security equipment had to be installed separately, the AMS 2 in 1 allows the door frame pre cut to suit which will save up to 4 hours to install.

- Fully adjustable unit - Micro switch box + Electric strike can be adjusted, overcome any issues with doors warping/door seals or movement.
- Works in conjunction with the AMS dual lock lever handles.
- The 2 in 1 unit saves time and money on installation costs.
- Reversible, product not handed, knock out option to reverse electric strike.
- 2 in 1 includes a MicroSwitch box + Electric strike.

PATENTED
