

Self-Latching Lock Monitoring Box

MSB62-333

The global standard in
security hardware solutions

Self-Latching Lock Monitoring Box

MSB62-333

Only product to overcome fire regulations and Security requirements on a square bolt deadlock.

The **MSB62-333** is the latest innovation in lock monitoring technology which overcomes the issue of a door with a square bolt deadlock not latching if the square bolt dead lock is locked with the door in the open position.

The lock monitoring box comes supplied with one change over contact that can be used for multiple applications. Standard security wiring applies depending on the installation system and requirements.

HIGHLIGHTING FEATURES

- Overcomes fire regulations & security requirements
- With the square bolt in the thrown position, the AMS MSB62-333 will allow the door to close and secure and wont bounce off the frame

KEY FEATURES

- Fire regulations & Security requirements on a square bolt deadlock
- 4 hr fire rated
- Self-latching

APPLICATIONS

Any door that requires dual locking such as:
