security hardware solutions

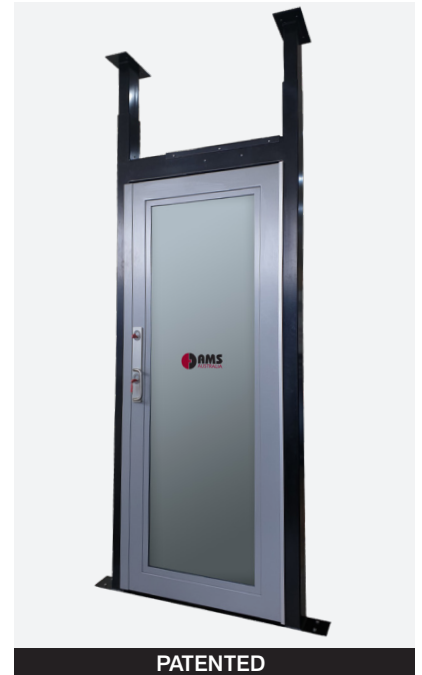

# Perimeter Security Door Solution

## PSDS

### All in one security solution.

The **AMS Australia Perimeter Security Door Solution** is a complete security solution in one package. The door and hardware are pre-fitted and wired in the factory which means that less time is required on installation. The "H" frame has adjustable legs so it can be bolted from slab to slab. This allows for varying frame heights.

The door is glazed steel with the sections taking full size SCEC Endorsed locks. The glazing includes laminated glass with 11 mil security film added to comply with specifications. The door can be automated for disabled access or to meet BCA standards. Both single and double door configurations are available as a custom made product.

## STRUCTURAL FEATURES

---

- 125mmx75mmx3mm RHS steel section frame in a "H" configuration
- Adjustable legs to "H" frame to allow slab to slab fixing
- Frame can be mortar filled for added security
- All security devices pre-fitted and pre-wired in factory
- Full length hinges
- Secure under door seal
- Powder coated as required
- Can be produced in various sizes
- Can be produced with various security equipment as required
